

Company Update

Altai Super WiFi Deployed in the Largest Container Port in West Africa

Altai has recently deployed Super WiFi solution in MPS Tema Port in Ghana. The port is operated by the consortium Meridian Port Services (MPS), which is a joint venture with Bolloré Transport and Logistics as well as APM Terminals as the two main shareholders.

Altai is a leading supplier of outdoor WiFi especially for large area coverage and even in challenging environment. Based on Altai's track record for more than 200 container ports and logistics facilities, MPS chose Altai as the provider of WiFi infrastructure for their recent deployment at MPS Tema Port in Ghana, which will be the largest container port in West Africa upon completion of expansion which is currently in progress.

During the deployment process, Altai's expertise on coverage for complex environment and the unparalleled performance have left MPS totally impressive.

ISP Expansion in Equatorial Guinea

Guineanet has been a long-term customer of Altai Super WiFi in Equatorial Guinea. In late 2018, it has been acquired by Muni S.A., a service provider under GreenCom, which is a mobile operator in Equatorial Guinea. With the introduction of GreenCom via the acquisition of Guineanet, Altai expects there will be new opportunities for its business development in the country for ISP sector in the near future.

Product News

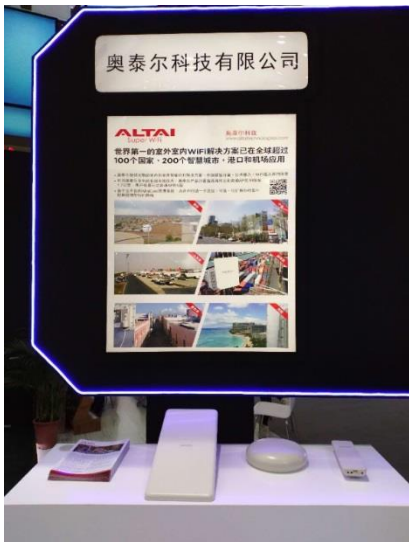

Altai Launches AltaiCare Appliance

AltaiCare has been a very popular network management solution among Altai's customers since its launch. It is currently offering two options of deployment, cloud-based and on-premises, to fit in different environments. In order to provide more flexibility to our customers, especially for small or medium size enterprises, Altai launches AltaiCare Appliance – AltaiCare in a Box. It offers comprehensive authentication methods to manage Wi-Fi accessibility with built-in RADIUS server and a captive portal server for facilitating small and medium-sized businesses in deploying secured employee and guest access services.

Company Events

Altai at CITE 2019 in Shenzhen

Altai participated in the China Information Technology Expo (CITE) 2019, an information technology event held in Shenzhen in early April. The event has all types of IT development trends, news, latest innovation and services showcased to the visitors. Altai displayed their latest Super WiFi solutions deployed in various industrial segments such as ports, mining, oil & gas, logistics and warehouses. The coverage and cost-effectiveness of Altai's products have left the visitors impressed.

Altai Meets Partners at Roadshows in Colombia and Morocco

Altai has met its partners and customers in Colombia and Morocco at roadshows held in this April.

At both events, Altai's regional representatives showcased Altai's latest solutions and remarkable application cases in various industries. Welcoming responses were received from the audiences.

During the Roadshows in Colombia, Altai's new distributor in the country, Avantec, has organized seminars in three major cities, namely Cali, Medellín and Bogotá, whilst our distributor in Morocco, Sirecom, has held the seminar in their own training centre at Casablanca.

Altai Participates in Smart Manufacturing Event at HKSTP

Altai participated in the Smart Manufacturing Solutions Day hosted by Hong Kong Science and Technology Park (HKSTP) in late April.

Attendees of this event are all representatives of industrial organizations that are looking for digital solutions for their factories and warehouses. Altai was selected to exhibit in this event by HKSTP to showcase its solutions and the advantages of

Altai's products when applying in smart manufacturing.
