

Overview

Jollibee is one of the world's largest chains of fast-food restaurants. Originating in Philippines, it owns a total of ~1,200 outlets all over the world. In order to keep up with the service level, the fast-food giant has been working on improvement on its operations and inventory management systems. Altai Super WiFi has joined one of the improvement projects with Jollibee.

The project's purpose is to further enhance their warehouse's inventory system. The warehouse is consisted with two sections, they are 3,000 sqm and 4,200 sqm respectively. The inventory system has to cover both sections. A reliable network coverage is the backbone for the system to support such a large area.

For the reason, Interlite proposed Altai Super WiFi to Jollibee. Utilizing a patented smart antenna technology, Altai's AP can cover a much larger area than normal APs. For the 7,200 sqm area of Jollibee's warehouse, only 23 units of Altai's A2e have been occupied. Nonetheless, they are able to provide a stable and robust network coverage for the whole warehouse area, which has a total area of 7,200 sqm. Jollibee was totally satisfied with the quick deployment and the high quality of the wireless connection. The warehouse's daily operation has been greatly fostered by the stable network connection brought by Altai.

Customer Name:

Jollibee
Interlite Corporation (Distributor)
Infotouch (System Integrator)

Deployment Location:

Philippines

Application:

WiFi network for mobile operation and system management

Products used:

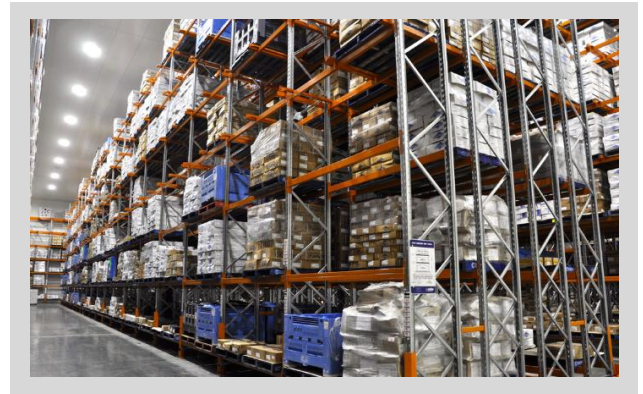

A2e

Result:

Jollibee was totally satisfied with the quick deployment and the high quality of the wireless connection. The warehouse's daily operation has been greatly fostered by the stable network connection brought by Altai.

The Challenge

- Large area of coverage for a total area of 7,200 sqm
- Difficult environmental factors such as high ceiling, reflective metal racking etc
- Signal interference between the RF gun and the inventory system

The Solution

23 units of A2e has been deployed in combination with AltaiCare to provide a full network coverage for all devices under the inventory system.

The Result

Jollibee was totally satisfied with the deployment result. The whole deployment was completed in a professional manner. By adopting Altai's patented super Wi-Fi technology, a satisfying outcome was achieved. All workers can now access the inventory system via a good quality WiFi network, which has greatly improved the operation efficiency and thus has reduced the cost.

About Altai

Altai Technologies is a leading supplier of carrier-grade Wi-Fi products and technologies with a distribution network reaching 100 countries. Altai Super WiFi is the leading solution for vertical industrial markets, covering over 200 terminal ports and airports globally.

The Altai Super WiFi Solution includes a complete portfolio of indoor and outdoor products for carriers, WISPs, and enterprises to support a wide range of applications such as mobile data off load, public access, WLAN access, and backhaul.

Utilizing patented smart antenna technology, as well as a cloud-based management system called AltaiCare, the Altai Super WiFi Solution is designed from the ground up to deliver WiFi networks that have unprecedented performance, reliability, scalability, and manageability.
