

Overview

Mesa Bodrum is a holiday resort situated on Bodrum peninsula of Turkey. Being surrounded by the forest on the north and the seaside at the east, Mesa Bodrum consists of 48 villas, 196 residences, its own private cove and a 19,000 m² beach area between pine and olive trees. Visitors who expect to spend leisure time in the holiday villa would be immediately welcome by the embrace of nature.

While allowing the guests to relax in the beautiful landscape, Mesa Bodrum understands the importance for people to stay connected to the world. Therefore, Mesa Bodrum is missioned to deploy a high-quality wireless network in the holiday town to ensure an always available internet access. In the end, Altai Super WiFi has been selected by the resort owner for its unique smart antenna technology and transcendent RF performance on large area coverage.

The phase one installation process for Mesa Bodrum has already been completed. The Wi-Fi network provided by Altai is not only able to cover a larger area with less APs, Altai's network capacity is also higher than other competitors in the market. Altai's Wi-Fi has guaranteed the guests of Mesa Bodrum a reliable and always connected internet access in the most leisure environment.

Customer Name:

Mesa Bodrum

Deployment Location:

Bodrum, Turkey

Application:

Guest Wi-Fi network

Products used:

A8in(ac)

Result:

With its outstanding technology and RF performance, Altai's Super WiFi solution has provided a robust and reliable network coverage for the guests staying in Mesa Bodrum to ensure they stay connected with the modern world anytime during their vacation.

The Challenge

- Large area coverage required
- Large number of simultaneous users
- Limited sites for installation

The Solution

Altai's A8in Super WiFi base stations have been deployed in the resort for phase one to provide internet access in Mesa Bodrum's public area. Due to its patented smart antenna technology, Altai's equipment is able to provide excellent network coverage in large and heavily woodland area.

The installation process for phase one has been completed in a quick and professional manner. The resort owner is amazed by the result and is planning for phase two deployment with Altai.
