

## Company Update

### Altai to Power the Mining Industry in Botswana

After sharing a series of successful mining projects in earlier newsletters, Altai is happy to announce another project to deploy Super WiFi solution for Karowe Mine, an open-pit diamond mine located in the Boteti Sub-District of Botswana. Karowe, which means precious stone in the local language, is one of the world's foremost producers of large and high quality Type IIA diamonds. The mine is owned by the Canadian Lucara Diamond Corporation, through its local subsidiary Lucara Botswana.

With support of Altai's local partner in Botswana, Abaricom, Altai has proposed to deploy A3-Ei for the outdoor mining area and IX500 for indoor camp buildings, while having AltaiGate for centralized monitoring and management.

## Altai Unwires Warehouse Management

Gourmet is a well-known Chilean grocery brand that has a long history in the country. Over the years, the company has developed from a small company of 11 people to a national brand that has more than 240 products in their portfolio.

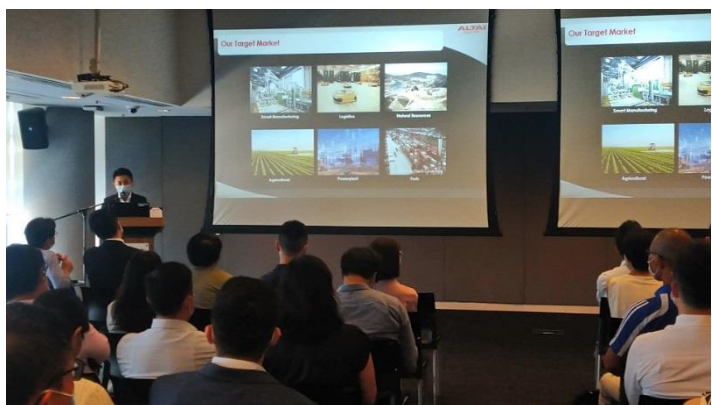

With the ongoing growth Gourmet is experiencing, all supporting facilities have to be upgraded to cope with the ever-increasing demand. In order to uplift the operational efficiency of their warehouse management, Gourmet selected Altai Super WiFi solution for their warehouse facilities after learning Altai's outstanding technology

and renowned reputation on providing ubiquitous coverage and outstanding RF performance in challenging environments of logistics application. The deployed solution consists of Altai's A3c, A2 and AltaiCare.

## Company Event

### Optimize Logistic Efficiency with Altai Super WiFi

"Optimizing Logistic Efficiency via New Technologies and e-Commerce Platforms" was an event held by Hong Kong Science Park for selected companies to present their innovative solutions on enhancing logistic efficiency to various logistics and commerce associations and seek collaboration opportunities with each other.

As one of the invited speakers, Altai presented its unique patented Super WiFi solution with long list of success stories in the logistics sector, especially for container ports and logistics centres. Participants were all amazed by Altai's proven technology and the presentation attracted a large number of inquiries. Altai is now having discussions with some of the participating companies and looking forward to have collaboration with them in the near future.

Please connect with Altai to learn more details of these projects.
