Altai Connects EUROGATE Terminal in Tangier

EUROGATE is Europe's leading shipping company-independent container terminal and logistics group based in Bremen of Germany. EUROGATE operates terminals in Germany

(Bremerhaven, Hamburg and Wilhelmshaven), Italy (La Spezia, Ravenna, Salerno), Morocco (Tangier), Cypress (Limassol), Portugal (Lisbon) and Russia (Ust-Luga). Altai has been appointed to deploy its wireless solution for EUROGATE's terminal in Tangier.

EUROGATE Tanger S.A. container terminal is located on the Strait of Gibraltar in Morocco and serves as a bridge between Africa and Europe. It is located in a free trade zone to the east of the city of Tangier. To provide a full range coverage for such a significant terminal, Altai has deployed its flagship A8 base stations for the yard area and IX500 for the indoor office areas.

Krysp Wireless and Wi-Fi NOW team up to promote Altai Super WiFi

Krysp Wireless is Altai Technologies' North America Master Distributor focused on building scaled distribution of Altai's Super WiFi solution across the US and Canada. The company is now teaming up with Wi-Fi Now, an organization that is dedicated to support and promote all things Wi-Fi, to promote Altai's outstanding wireless connectivity technology that is especially suitable for challenging RF environments such as container ports, industrial plants, farming operations, mining, underground complexes, marinas, and more.

Over the course of next twelve months, Wi-Fi NOW will be zooming in on Altai Super WiFi use cases and capabilities exemplified by the deployments of Krysp Wireless.

Company Event

Altai at LOGTECH Expo in Hong Kong

Altai participated in the LOGTECH Expo organized by the Transport and Housing Bureau and Hong Kong Productivity Council on 15 Oct 2021. The goal of this event is to keep the logistics SMEs updated of the latest technological trends of the sector, and to encourage their application for funding from the Pilot Subsidy Scheme for Third-party Logistics Service Providers. As a digitalization enabler with numerous success cases of improved productivity in logistics centres, Altai was invited by the organizer as one of the exhibitors and

speakers at this event.

Altai has displayed its flagship A8 base station at the exhibition and Altai's Vice President of Business Development, Ken Leung, presented Altai's technology and its applications in logistics industry. Visitors were fascinated by Altai's proven wireless technology and how widely it can be applied in different scenarios.
