

## Company Update

### **Altai Brings Privileged Leisure Lives Online in Malaysia**

Amverton, as one of the leading property developers in Malaysia, has developed a series of high quality resorts and hotels for visitors and tourists to enjoy their leisure time in a luxurious and relaxing environment. Realizing the need of their guests to access internet anytime and

get connected to the rest of the world, Amverton selected Altai Super WiFi to deploy a wireless network for their newly developed resort, Riverine Hotel & Suites, in Selangor of Malaysia.

With Altai's IX500 and C1n installed, the robust and stable Wi-Fi network powered by Altai's equipment would allow the hotel guests to browse the

internet at any time and enjoy online service or entertainment. Altai Super WiFi has enabled Amverton to bring their hotel service to the next level.

## Super WiFi Solution Recognized in India

Altai's authorized distributor in India, JNS Systech, has recently been awarded by SME Channels as an Innovative OEM in Industrial Wireless Category. SME Channels is a leading IT channels magazine in India. The award to JNS is to recognize its effort on empowering customers and employees during the pandemic and enhancing business continuity, operational efficiency while contributing to the ecosystem at the same time.

JNS has achieved these goals by providing Altai Super WiFi solutions to its customers to foster industrial automation in various projects including digitalization of Hindalco

coal mine and application of robots in hospitals. The core of these projects is the reliable wireless network powered by Altai Super WiFi. With its unique technology, Altai's solution is able to provide robust Wi-Fi network coverage to any venue with simple and cost effective deployment even under harsh environment. Improving the management and operation efficiency of enterprises are critical in such a difficult time during the pandemic.
