

## Company Update

### Wireless Agricultural Warehouse Management with Altai

Established in 1948 as a Chilean company closely linked to the agricultural sector, ANASAC

is now a global company of value-added solutions development with a significant presence throughout Latin America and other regions.

To keep up with the company's fast-paced growth and enhance operation management, ANASAC hired Prime Tecnologia SPA to implement a wireless solution for their warehouses with Altai Super WiFi solution.

To keep up with the company's fast-paced growth and enhance operation management, ANASAC hired Prime Tecnologia SPA to implement a wireless solution for their warehouses with Altai Super WiFi solution.

Altai's solution has connected ANASAC's warehouses and facilities to its central management system. With the wireless network powered by Altai, handhelds and other equipment in ANASAC's facilities can now be monitored and managed remotely in the

control room.

### Log4j Fix Patches for Altai Products

Log4j (also known as Log4Shell) is a software vulnerability in Apache Log4j 2, which is a popular Java library for logging error messages in applications. The vulnerability allows malicious attackers to execute code remotely on any targeted computer. For the purpose of risk control and mitigation, Altai has been working on the fixing patch since the vulnerability was identified in December 2021. After thorough studies conducted by the technical team, we would like to confirm that only the below products are affected and the fix has been made available: -

**AltaiGate** – patch available in version 1.2.0.1705

**AltaiCare On-Premises** – patch available in version 4.0.0. OP1302

**AltaiCare Cloud** – patch already applied in the platform

None of Altai's AP are susceptible to this vulnerability.

## Upcoming Events

### Wi-Fi Now Special Event: Wide-Area 'Altai Super WiFi' for Industrial Applications

Altai will join an event hosted by Wi-Fi Now with Altai's distributor in US, Krysp Wireless, on 9 Feb 2022 to present the unique patented long-range Altai Super WiFi technology and its applications in industrial context. Altai's Vice President of Business Development, Mr Ken Leung, will be the key speaker of the event.

Date: 9 February, 2022

Time: 6 pm CET / 9 am PST

Registration: <https://wifinowglobal.com/webinar/wide-area-super-wifi-for-industrial-applications-thursday-february-3-6-pm-cet-9-am-pst/>

## **SYSCOMEXPO 2022**

SYSCOMExpo is the annual exhibition & conference hosted by Altai's local distributor in Mexico, Syscom. Every year, the event gathers manufacturers from all over the world to present their latest solutions with multiple conferences on the most concerned topics by the industry.

In this year, Altai will join the big show being held in Guadalajara, Mexico from 17 – 18 February. You are invited to join the event and receive information on the latest solutions firsthand.

Date: 17 and 18 February, 2022

Venue: Hotel Fiesta Americana, Guadalajara, Mexico

Registration: [https://www.syscom.mx/singlepage/syscom\\_expo\\_2022\\_GDL](https://www.syscom.mx/singlepage/syscom_expo_2022_GDL)
