Altai Powers Higher Education in India

Understanding the importance of education and valuing the future of next generation, Altai is currently deploying its Super WiFi solution at Chaudhary Devi Lal University (CDLU) in India.

Established in 2003 naming after the former Deputy Prime Minister of India, CDLU is located in Sirsa, the westernmost region of the Indian state of Haryana. Spread across 213 acres of land, CDLU currently has over 60 colleges affiliated to it with total enrollment of students crossing 42,000.

To improve students' learning experience and allow wireless internet access across the campus area, JNS, Altai's distributor in India, will start to supply APs for installation across 18 buildings in the campus. Once the deployment is completed, students of CDLU will benefit from the high-performance Wi-Fi network powered by Altai.

Altai Joins Hands with Orange Business Services to Realize Industrial Digitization and Automation in the Industry 4.0 era

Altai is proud to announce that it is now partnering with Orange Business Services, a global IT and communications services provider, to offer customers among the Asia Pacific region unique and cost-effective large coverage Wi-Fi solution to help accelerate and enable industrial digitization and automation in logistics market.

With 28,500 staff located in over 100 countries, Orange's international network reaches 220 countries and territories. Altai is selected and trusted by Orange due to its extensive expertise and proven deployment track records in industrial market. Orange understands that Altai's sophisticated smart antenna technology and years of deployment experience make the most capable and cost-effective WLAN solution in the market to fit into harsh, mission critical and ever-changing industrial environment. By working together closely, the two companies will bring in a full turnkey solution to the logistics industry.

Altai Works with New Partner to Foster Automation in Hong Kong

Altai has recently signed a new distributor, SiS International, to increase its exposure and expand its market in Hong Kong and Macau. SiS was first found in 1983 and has become one of the largest distributors of IT solutions across Asian countries. It is listed on the Main Board of The Stock Exchange of Hong Kong Limited (Stock code: 0529). As a value-added IT distributor, SiS not only provides a wide variety of products, but also offers professional technical services.

SiS International Limited
Your Preferred Distributor

Also headquartered in Hong Kong, Altai is excited to be partnering with SiS to gain more access to the market of its local cities and wider business opportunities. Both companies believe that Altai's patented smart antenna technology has high potential and significant advantages in today's trend of industrial digitization and automation. With the partnership in place, Altai and SiS will combine their strengths and advantages to transform local enterprises with flexible, reliable and cost-effective Wi-Fi solutions.
