

## Company Update

### Enabling the Port of Alexandria with Super WiFi

Co-managed by CMA CGM Group, a world leader in shipping and logistics, and the Egyptian authorities, Pier 55 is a new multi-purpose terminal at the Port of Alexandria. Covering an area of 560,000m<sup>2</sup> with quays of over 2 km in length with a capacity of around

1.5 million TEUs (Twenty Foot Equivalent Units), the terminal is now linking Egypt to the rest of the world.

The management team of Pier 55 is highly concerned on the quality of its equipment. Therefore, they selected Altai to provide a reliable

wireless connection to the terminal in order to support its critical daily operation. With the patented smart antenna technology and outstanding RF performance, Altai's Super WiFi base station is able to cover a much larger area than standard Wi-Fi AP. Besides Pier 55,

Altai's Super WiFi solution has already been selected by many renowned international port operators all over the world and becomes de facto standard.

## Company Events

### Altai Showcases Super WiFi Technology at Syscom Expo in Mexico City

After its first stop in Guadalajara of Mexico held earlier this year, Altai's distributor in Mexico, Syscom, has hosted the second Expo in Mexico City from 24 – 25 May. As expected, the event has gathered vendors from various industries around the world to share and discuss the latest networking technologies and solutions with the local customers.

At the event, Altai's Regional Business Development Director for LATAM, Javier Mochnacs, introduced Altai's unprecedented patented smart antenna technology to the audience and briefly explained some of the remarkable successful projects completed with Altai's Super WiFi solution. The presentation was well received by the audience and the LATAM Team has received numerous enquiries for follow-up.
