Altai Captures the Opportunities in Indian Logistics Industry

Being the established platform for warehousing, logistics, material handling, automation and supply chain sector, the India Warehousing & Logistics Show was held in Mumbai from 1 to 3 Dec this year. As the India market is recovering from the pandemic-induced disruptions, Altai and its distributor in India, JNS Systech, have captured the opportunity to increase Altai's market exposure by participating the show. The Warehousing & Logistics show has attracted a large number of visitors who are decision makers preparing to upgrade their businesses during this rehabilitation period and Altai/JNS's booth has received large number of enquiries from various industries.

Presentation at Mauritius Maritime Week 2022

Held from 13 to 15 Dec, Mauritius Maritime Week 2022 continues to be the biggest maritime transport trade event in the Indian Ocean region. The event is hosted by Mauritius Shipping Corporation Limited and supported by the Port Management Association of Eastern and Southern Africa (PMAESA) and the Association of Indian Ocean Islands Ports (L'Association des ports des îles de l'océan Indien (APIOI).

In a professional but relaxed atmosphere, world class conference speakers addressed issues, challenges, solutions and innovations in port operations, shipping, supply chain and logistics strategies which were attended by senior government officials, industry principals, academics, senior level executives from countries throughout the Indian Ocean islands region. Altai's local partner in Mauritius, Cybernaptics, represented Altai to promote our Super WiFi solution during the event. Cybernaptics introduced how Altai's innovative smart antenna technology can transform port operations. Cybernaptics' presentation successfully attracted a large number of enquiries from various port operators in the region.

Super WiFi for Hong Kong Construction Industry

Thanks to its patented smart antenna technology, Altai Super WiFi is especially suitable for harsh industrial applications including construction sites. In order to increase its exposure to the decision makers in the relevant industries, Altai participated in the event, Construction Innovation Expo 2022, to promote its best-of-class solution that can transform a construction site to an automated one for management and operation. The event was co-organized by Development Bureau, the Government of the Hong Kong SAR, Centre of Science and Technology Industrial Development (CSTID), the Ministry of Housing and Urban-Rural Development of the People's Republic of China and Construction Industry Council of Hong Kong. The expo has been held from 13 to 17 Dec at Hong Kong Convention and Exhibition Centre. The event allowed its participants ranging from decision makers of various industries to general visitors, to get access to emerging and advanced technologies in the construction industry and discover business opportunities in Hong Kong. Altai's

outstanding technology has successfully attracted many management level executives of different organizations to discuss about potential future collaborations.
