Company Update

Altai Enables the Gateway to Ivory Coast

After the successful deployment for Côte d'Ivoire Terminal (CIT), Altai has expanded its wireless network to the principal terminal of Ivory Coast, Abidjan Terminal.

The Abidjan Terminal as a joint venture between APM Terminals and Bolloré Africa Logistics. The terminal is the primary gateway to the Côte d'Ivoire for containers. Excellent road connections also make it a major transit point for land-locked countries such as Mali, Niger and Burkina Faso.

Altai's Super WiFi solution has been selected by this significant neighbour of CIT due to its impeccable RF performance and zero downtime network reliability, which has been proved and is trusted by CIT. Altai's flagship A8n Super WiFi base stations, trusted by all leading container port operators globally, has been deployed.

Outdoor Wi-Fi 6 Products Launch

Subsequent to our well-received indoor Wi-Fi 6 product, IX600, Altai is excited to launch our outdoor Wi-Fi 6 product, the CX600 and AX600 family. With the latest Wi-Fi 6 (802.11ax) technology and enhanced security including WPS3 and Altai WIPS suite, both products are specifically designed to provide highly reliable and consistent connectivity to mobile users and IoT devices at the market's most affordable price point. CX600 is available for shipment and AX600 family will be ready soon!

Company Events

Altai Attracts Attention at Syscom Expo

Syscom Expo is the annual event organized by Altai's long-term distributor, Syscom, in Mexico. This year's event was held on 8 and 9 March at World Trade Center in Mexico City. The expo gathered more than 100 technology manufacturers and 3,700 resellers to exchange the latest technologies development in telecommunication, security and energy sectors. As usual, Altai's booth was surrounded by visitors due to its popularity especially amongst WISPs and the attractive presentation provided by our LATAM sales team.

Altai Brings Super WiFi to Enlit Australia

This March, Altai's distributor in Australia, idatanet, has brought Super WiFi solution to Enlit

Australia. The Australian show is a two-day event comprised of a Leadership Summit, B2B exhibition with two technical stages and startup hub which combine to attract the leading voices of Australia's energy utilities to discuss and debate the challenges and opportunities of the energy transition. idatanet and Altai expect the event to be a great opportunity for promoting Altai Super WiFi solution to the utilities market of Australia.
