Full Outdoor Wi-Fi Coverage for Condo in Argentina

Altai was working with its partner in Argentina, Multiradio, to deploy a 100% Wi-Fi coverage for the outdoor area of three condominiums in different neighborhood. The Wi-Fi network is deployed to allow the residents to have full internet access in the outdoor area of the condominiums. The project has chosen to adopt Altai's A3-Ei Dual-Band Access Point and the C1n Super WiFi AP/CPE, one of the APs with the best price-performance ratio in the market. All of the condominiums deployed with Altai's products are auto-sustainable using 100% "green energy" powered by solar panels. As part of this auto-sustainable ecosystem, Altai's solution is proven to be highly flexible and 100% eco-friendly!

Altai's unique technology and comprehensive solution has allowed the condominiums residents to leisurely enjoy robust, stable and reliable Wi-Fi network at every outdoor corner within the neighborhood with solar power. The Wi-Fi network has brought great convenience and highly improved the quality of the residents' everyday life.

Altai Appoints Business Development Executive in Brazil

Altai is excited to announce that the company has appointed Eng. Fabio Rangel as Business Development Manager for Brazilian Market, starting from 1 May.

With vast experience working previously in similar positions at renowned multinational companies in telecommunications and utilities sectors, Mr Rangel is bringing his in-depth market knowledge to help Altai lay a solid footprint in Brazil.

Brazil, being the South America's largest market, is one of the key regions for market development. With Eng. Rangel on board, Altai reaffirms its strong commitment with LATAM market.

Company Events

Super WiFi Across the Globe

Altai Super WiFi can be seen in various events across the globe recently. Subsequent to GITEX Africa last month, Altai has participated in two major exhibitions held in Southeast Asia; they are the highly anticipated Asia Tech in Singapore and Technology Senate 2023 held in Goa of India.

Taking place on 6 – 9 June 2023 in Singapore, Asia Tech x Singapore (ATxSG) is Asia's flagship tech event where technology intersects with society and the digital economy. And while organized by Infocomm Media Development Authority and Informa Tech, and supported by the Singapore Tourism Board, ATxSG provides a platform for conversations across business, tech and government.

On the other hand, held on 9 – 11 in June and organized by some of India's largest media brands, Technology Senate is India's most definitive voice and platform for CIOs, the event is a showcase of how India's leading organizations are set to reinvent for the future by placing their bets on emerging technologies.

Both major technology events have gathered technical expertise and decision makers of technology companies to exchange information and learn the latest market trends. Altai's representatives introduced their flexible and powerful Super WiFi solution as well as the unique patented technology that is used in Altai's base stations to the attendants and visitors to their booth. They were all attracted by Altai's products' impeccable RF performance and the tracked record of successful projects. During the shows, many Altai's partners from different regions also paid their visit to Altai's booth to show their support to Altai's brand and trust on Altai Super WiFi solutions.
